Requirements for use of a Physician Assistant:

A physician, office, firm, state institution or professional service corporation may not employ or make use of the services of a physician assistant in the practice of medicine unless the physician assistant is supervised by a physician licensed in the State of Montana, possesses a current active Montana PA license and has completed and submitted this Supervision Agreement application form with fee to the Board.

Scope of Practice:

A physician assistant may diagnosis, examine and treat human conditions, ailments, diseases, injuries or infirmities either physical or mental by any means, method, device or instrumentalities authorized by the supervising physician. The above named supervising physician and physician assistant shall execute a duties and delegation agreement constituting a contract that defines the physician assistants professional relationship with the supervising physician and the limitations on the physician assistant's practice under the supervision of the supervising physician. The duties and delegation agreement must be kept current by amendment or substitution to reflect changes in the duties of each party occurring over time. **(All physician assistants must have a duties and delegation agreement on file prior to commencing practice.)**

Supervision:

A physician assistant is considered the agent of the supervising physician with regard to all duties delegated to the physician assistant. The supervising physician is professionally and legally responsible for the care and treatment of a patient by a physician assistant. The onsite or direct supervision of a physician assistant by the supervising physician is not required if the supervising physician has provided a means of communication between the supervising physician and the physician assistant or has identified a "back-up" supervising physician in the event of the primary supervising physician's absence.

"Back-up" supervision for periods of absence:

When the supervising physician is unavailable by means of communication the following will apply:

- ☐ The supervising physician will provide for a "back-up" supervising physician(s) to supervise the above listed PA when the supervising physician is unavailable. A list of the "back-up" supervising physician(s) must be on file with the duties and delegation agreement, kept current and available upon request by the Board. **(Important Note: Having a "back-up" supervising physician doesn't relieve the supervising physician listed in this agreement of the professional and legal responsibilities for the care and treatment of patients by the PA listed above.)** OR
- ☐ The physician assistant will cease to practice when the supervising physician is unavailable.

Chart Review:

The Board of Medical Examiners has set the following for chart review:

- 24.156.1623 CHART REVIEW (1) The supervising physician shall review a minimum of 10 percent of the physician assistant charts on at least a monthly basis.
- (2) Chart review for a physician assistant having less than one year of full time practice experience from the date of initial licensure must be 100 percent for the first three months of practice, and then may be reduced to not less than 25 percent or the next three months, on a monthly basis, for each supervision agreement.
- (3) The supervising physician shall countersign and date all written entries that have been chart reviewed and shall document any amendments, modifications, or guidance provided.
- (4) Chart review for a physician assistant who has been issued a probationary license must be 100 percent on a monthly basis, unless the board terminates the probationary period.
